

XPOD XRetail

Designation: Retail

The X Retail range aims to provide painless instant retail options for commercial property owners that might have that little bit of unutilized GLA and excess parking.

The range is able to provide an array of 6, 10, 30, 50 and 70 square metre unit options, with 15 square metre incremental sub-divisions of larger units, none of which demanding any networks or preparatory works. These are ideal for location in tarmac or paving surfaced parking and unutilized structured parking decks.

Convenience centres can maximize their lineshop presentation, provide instant lifestyle environments and react to consumer shopping trends in the time it would take get the required permissions and effect the fabrication processes.

Regional & super regional malls could create outdoor lifestyle retail where they had no such prior offering, artisanal markets, small service lineshops and layered outdoor foodcourt offerings. Entrepreneurial hubs, feeder retail precincts and community engagement retail centres are all achievable using this methodology.

Long term, but temporary leasing options will have new found feasibility.

In short, retail agility is assured with xPod, xRange and xRetail.

XOstendo & Max Plus
